

# Irrigated Cropping Forum on the web

[www.icf.org.au](http://www.icf.org.au)

The Irrigated Cropping Forum represents irrigation interests across the southern Murray-Darling Basin, and combines the experience and influence of its four constituent groups:

- **The Victorian Irrigated Cropping Council (VICC)**
- **The Irrigation Research and Extension Committee (IREC)**
- **The Murray Research and Development Council (MRDC)**
- **The Lachlan Irrigation Research Advisory Council (LIRAC)**

to overcome political and geographic barriers to promote collaboration between irrigators, government and private agencies to encourage fully integrated R&D programs that contribute to a productive and profitable future for the irrigated cropping industry and rural communities in the southern Murray-Darling Basin

## Web site features

- About ICF
- Oilseed industry news - new reports posted fortnightly
- Lifting the value of irrigated cropping - project description
- 10 t/ha winter cereal breeding program - coming soon
