

Hands on Precision Ag Training | Griffith

Thursday, March 18, 2021
9am

Presenter - Anthony Rudd - iAg and IREC

These hands-on workshops will cover:

- Introduction to PA, terminology of hardware, software and much more
- Producer case studies (benefits and lessons learnt)
- Identifying and quantifying variability & constraints
- Where to and how to start managing constraints with PA technologies
- Tips and tricks for data management
- Developing your PA implementation plan

This workshop is suitable for farmers in the early stages of their PA journey, although all are welcome.

Bookings essential via <https://www.trybooking.com/BOXW>
