

Dear SVCGA member,

I am very pleased to inform you that SVCGA, in partnership with IREC, have received CRDC funding through Grass Roots Grant program for a project called “Digitally Ready Cotton Farmers”.

What: ‘Digitally Ready Cotton Farmers’.

This project will be made of 2 parts- a one-on-one farm visit (2 hours) and your attendance at a full day workshop.

Cost: \$100 for SVCGA members (\$150 for non-members)

When: November through to February

Where: On your farm & full day group workshop (location to be determined)

During the 2-hour farm visit with digital ag expert Anthony Rudd from I-AG Pty Ltd, an update of all software will happen and Anthony will ensure the office set-up is correct and geared for maximum efficiency. A machine audit will also be performed during the visit.

During the workshop, activities you will work through include data standardisation, as well as learning and performing the steps to capture, store and share ag data collected from various sources such as My John Deere & spray rigs. This is also an opportunity to share your learnings, failures and successes with others.

We all create a vast amount of data from our farms and this project will ensure we are set up to capture, store and use this data correctly.

There are **only 25 places available**, so register your interest now via email iva@irec.org.au or phone 0402 069 643 ASAP.

As a member of SVCGA, I urge you to accept this invitation to take part in this exciting project.

Kind regards

Paul Cleton

SVCGA President.

What: Digitally Ready Cotton Growers

Cost: \$100 for SVCGA Member (\$150 for non-members)

When: TBC

Where: On your farm + Full day group workshop (Location to be determined)
